Skills

- **Languages**: Python, JavaScript, C++, SQL
- **Frameworks**: HTML, CSS, Django, Flask, React, Django, NumPy, Pandas, Scikit-learn, Streamlit
- **Tools/Platforms**: MySQL, Excel, Power BI,
- **Soft Skills**: Problem-Solving, Analytical Thinking, Teamwork, Adaptability

Projects

Wine Quality Classification – Machine Learning Pipeline: Nov'25-Dec'25

- Built an end-to-end machine learning workflow on UCI wine datasets using preprocessing, feature handling, and model benchmarking.
- Compared Logistic Regression, KNN, SVC, Decision Tree, and Random Forest using classification reports, confusion matrices, and cross-validation.
- Selected Random Forest as the strongest model after evaluation and performance comparison.

Tech: Python, Pandas, NumPy, Scikit-learn

Contact Book – Flask Application with DSA: Jun'25-Jul'25

- Developed a contact manager using Flask, HTML, CSS, and JavaScript with Trie-based prefix search and hash-map-powered lookups.
- Added add/edit/delete, favorites, duplicate detection, CSV import/export, birthday reminders, and category filters.

Applied practical data structure concepts in a usable real-world web application.

Tech: Python, Flask, HTML, CSS, JavaScript

Data Analysis Platform – Full-Stack Data: Jun'25-Jul'25

- Built a secure web application for uploading CSV or Excel files, cleaning data in real time, generating dashboards, and exporting PDF reports.
- Implemented authentication, user-specific workspaces, analytics tracking, interactive visualizations, and reporting features.
- Developed during Python Full Stack placement training using Django, JavaScript, PapaParse, and SheetJS.

Tech: Django, JavaScript, Plotly.js, PapaParse, SheetJS

TRAINING

Python Full Stack Placement Training Jan'26-Feb'26

- Applied training concepts by building portfolio mini-projects and a complete Data Analysis Platform.
- Learned frontend, backend, database, and deployment concepts using Django, Flask, SQL, React, and Next.js.

Basic Data Structures & Algorithms Training-LPU skill development Jun'25-Jul'25

- Covered essential concepts including arrays, linked lists, stacks, queues, trees, and dynamic program.
- Examined time/space complexity and applied efficient algorithmic strategies.
- Built a simple C++ console-based Contact Book application as the final project.

Certificates

Java Programming | NeoColab	May'25
Cloud Computing | NPTEL Certification (IIT / AICTE)	Apr'25
Object-Oriented Programming (OOP) | NeoColab	Dec'24
Data Structures and Algorithms | NeoColab	Sep'24
Responsive Web Designing | FreeCodeCamp	Nov'23

Achievements

Hacker Rank Dec'25

Earned the Artificial Intelligence Fundamentals certificate from IBM along with a verified digital badge.

Adobe India Hackathon Jul'25

Participated in Adobe India Hackathon 2025 (Round-1: MCQ + Coding Challenge) representing Lovely Professional University as part of team Hack Street Boys, organized by Adobe & Unstop.

IBM Skills Build Nov'24

Earned the Artificial Intelligence Fundamentals certificate from IBM along with a verified digital badge.

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.74*** *Since Aug'23*

Narayana Junior College Vijayawada, Andhra Pradesh
Intermediate; ***Percentage: 92.1%*** *Apr'21 – Mar'23*

Viswabharati High School Gudivada, Krishna
Matriculation; ***Percentage: 100%*** *Apr'20 – Mar'21*
